USER GUIDE 2022

PLEASE READ CAREFULLY BEFORE FITTING AND USE

AIRLOK V1

TOOLS REQUIRED + RECOMMENDED FOR FITTING

1 X ELECTRIC DRILL		1 X SPIRIT LEVEL	
1 X 6mm MASONARY DRILL BIT		1 X SAFETY GOGGLES	
1 X 15mm MASONARY DRILL BIT		1 X STEP LADDER	
1 X 6mm ALLEN KEY		1 X VACUUM CLEANER	
1 X PENCIL		1 X ROLL OF MASKING TAPE	

INSTALLATION

STEP 1

Decide on the location for AIRLOK, taking into consideration the type and size of bike(s) it will secure and the type of wall it is being fixed to. Ensure there will be sufficient clear space around the AIRLOK and bicycle taking into account furniture, opening doors etc. Check the unit is not too high to be able to safely unlock the locking pin and remove / hang your bicycle. AIRLOK is designed for indoor and outdoor use.

Important: For Sold Secure & ART approval AIRLOK must be fitted to a solid substrate (i.e concrete / brick / block wall) using the security fixings supplied.

AIRLOK does not have to be fitted to a brick or concrete wall BUT it will not be as secure and will not be Sold Secure or ART approved. Before fitting, ensure the selected wall is suitably strong and of sound construction to support the weight of the AIRLOK and bicycle (stud or plaster board walls may be too weak).

AIRLOK can be fitted to a timber wall if timber is of appropriate structural rigidity and thick enough to fix with correct timber fixings such as heavy duty wood screws (not supplied) but again it will not be as secure and Sold Secure or ART approval will not apply.

STEP 2

Remove AIRLOK from box and slide metal frame from outer cover.

Using the metal frame, mark the 4 holes with a pencil ensuring the unit is level. Drill four pilot holes using a 6mm or 8mm masonry drill approximately 20mm deep.

STEP 3

Using a 15mm masonry drill bit (if using the supplied anchor bolts) drill each hole 55-60mm deep. Make sure these are clean and drilled level. Always vacuum out drilled holes before installing the anchor bolts.

Warning: Ensure you are not drilling into water pipes, gas pipes or electrical wiring. These may be recessed into a concrete or brick wall behind plaster or render. If in doubt check with an expert.

STEP 4

Remove the bolts from the outer casing and tap into the wall. Be careful not to damage the casings.

STEP 4a

Hold the metal frame up to the wall and screw the bolts back in through the frame using the security washers using an allen key wrench, tighten each bolt hand tight until the unit is secure. Please note the larger holes in the framework allow for a small amount of adjustability. Ensure unit is level and correct way up before fully tightening the bolts (and before inserting bearings).

STEP 5

Installation of ball bearings – **for Sold Secure & ART approval ball bearings must be hammered into the allen key holes.** To install these use adhesive tape to hold the ball bearing over the holes. Use a large hammer to hammer them into place then remove adhesive tape.

Note: Once ball bearings are hammered into allen key holes, removal of the AIRLOK unit is not possible without damage to the wall or AIRLOK itself.

Remember: If you're unsure please call us, refer to our website www.hiplok.com or ask a professional for help.

STEP 5 A (OPTIONAL)

HEXLOX

If you want to easily relocate your Airlok in the case you change houses, Hexlox can be used instead of the supplied ball bearings.

You can purchase the Hexlox Airlok Set from hexlox.com/Airlok

The set includes 2x #6mm Hexlox, 1x Coded Key + Key code card.

The Hexlox are inserted into the top right and the bottom left hex bolt that secure the Airlok to the wall. The Hexlox blocks the bolt so an Allen Key can not be inserted.

See instructions at hexlox.com/Airlok

Your Airlok is Sold Secure & ART approved ONLY when the supplied ball bearings are used. In using Hexlox this accreditation is void.

STEP 6

Once the frame is secure on the wall, lift on the plastic body and slide into place. Ensure the plastic body is the correct way up and it fully covers the frame on the sides.

STEP 7

Screw in the 4 allen bolts to secure the plastic body to the metal frame.

STEP 8

Ensuring the logo is the right way up, fit the rubber mouth part into the plastic body.

Ensure it is located properly and is a flush within the Outer Cover.

STEP 9

Unlock the locking pin using its key and push the pin up through the hole, into place. You are now ready to secure and store your bike with AIRLOK, see USER GUIDE on next page.

Familiarise yourself with both the locking / unlocking mechanism of the locking pin as well as its movement within the AIRLOK before securing bicycle for the first time.

LOCKING + LOADING PROCEDURE

When AIRLOK is not loaded with a bicycle, it is recommended to keep locking pin in locked position.

To load / unload bicycle, unlock locking pin with key (a) and pull down to lower position (b).

If necessary, locking pin can be removed completely for easier loading and unloading (c).

Once bicycle is loaded into AIRLOK, push locking pin back up to higher position and lock pin with key.

Check locking pin is locked before leaving bicycle.

If required, the locking pin can be kept in lower position when bike is not loaded. If keeping locking pin in this lower position, ensure pin is locked and key is removed to avoid potential theft of pin or accidental removal / dropping.

BIKE COMPATIBILITY

AIRLOK has been designed to work with the vast majority of bicycle frame shapes and sizes. Large box section frames, oversized tubes and unusual cross sectional shapes can be accommodated. However, we recommend checking the compatibility of your bike before installing your AIRLOK. See diagram below:

If a rectangular of dimensions 150mm wide x 60mm length will fit under the top (cross) bar within the front triangle of your bike, then your bike should work with AIRLOK. The max width of the frame that can be accommodated is 60mm

BIKE LOADING

When loading a bike into AIRLOK for the first time, take care and spend some time finding the correct balance point and position for the bike, so it remains stable. Depending on the width of handlebars of your bicycle, the front wheel may need to be turned. The design of the frame and angle of the top (cross) bar will also effect the angle at which the bicycle sits within AIRLOK.

Ensure the bike is in a stable position and within lower area of rubber frame holder before releasing your grip of the bike and pushing locking pin into upper position. Take care when unlocking pin and removing bike also. For further support on compatibility and loading go to www.hiplok.com/airlok

KEYS

REGISTER YOUR HIPLOK NOW

KEY REPLACEMENT

Don't get caught out. Register your keys and order replacements should you need them.

Please note replacement keys cannot be supplied if they have not been registered. Do it now before you forget! www.hiplok.com/register

LIFETIME WARRANTY

We stand by the quality of our locks and are proud to offer lifetime warranty on all Hiplok keyed chain and D locks. Register your lock now for piece of mind.

Product must be registered at hiplok.com within 30 days of purchase to qualify for Lifetime Warranty. Lifetime Warranty covers standard wear and tear and does not apply to products subjected to attempted theft or abuse.

WARRANTY

WARRANTY Hiplok and Plus 8 Industries Ltd warrants that this product is free of manufacturing defects in material and workmanship. Unless otherwise stipulated by local law, this warranty is limited to one year from the date of purchase and is limited to the original purchaser. This warranty does not apply in the event of abuse, negligence, carelessness or modification, or if the product is used in any way other than is intended. Nor is any attempted repair or replacement with any part or accessory other than the original Hiplok parts and products covered by the terms of this warranty. This warranty takes precedence over any other agreements or warranties, general or special, expressed or implied and no representative or person is authorized to assume liability on behalf of Plus 8 Industries in connection with the sale or use of this product. Plus 8 Industries makes no other expresses warranties or guarantees, except as otherwise specifically stated. Plus 8 Industries waives all responsibility for any third party for consequences that might result from the use or handling of any Hiplok product by any legal or natural person.	UK	Garantie Hiplok en Plus 8 Industries Ltd garanderen dat dit product vrij is van fabricagefouten in materiaal en vakmanschap. Tenzij de plaatselijke wetgeving anders bepaalt, is deze garantie beperkt tot een jaar vanaf de datum van aankoop en tot de oorspronkelijke koper. Deze garantie wordt ongeldig bij misbruik, nalatigheid, onzorgvuldigheid of aanpassing, en bij ander dan het beoogde gebruik van het product. Ook eventuele pogingen tot reparatie of vervanging van een onderdeel of accessoire met andere onderdelen dan die van Hiplok, vallen niet onder de bepalingen van deze garantie. Deze garantie heeft prioriteit boven eventuele andere overeenkomsten of garanties, of ze nu algemeen of speciaal, uitdrukkelijk of impliciet gegeven zijn. Geen vertegenwoordiger of persoon is bevoegd om namens Plus 8 Industries aansprakelijkheid op zich te nemen in verband met de verkoop of het gebruik van dit product. Plus 8 Industries geeft geen andere uitdrukkelijke garanties of waarborgen dan de specifiek vermelde. Plus 8 Industries wijst alle verantwoordelijkheid voor derden af indien het gebruik of hanteren van een product van Hiplok door een juridisch of natuurlijk persoon negatieve gevolgen heeft.	NL
Garantie Hiplok and Plus 8 Industries Ltd garantieren, dass dieses Produkt in Material und Verarbeitung frei von Herstellungsfehlern ist. Wenn nicht anders von lokalen Gesetzen vorgeschrieben, beträgt der Garantieanspruch ein Jahr ab dem Kaufdatum und besteht ausschließlich gegenüber dem Originalkäufer. Der Garantieanspruch erlischt bei missbräuchlichem, nachlässigem, unachtsamem und unsachgemäßem Umgang mit dem Produkt und wenn Veränderungen an dem Produkt vorgenommen werden. Ebenso erlischt der Garantieanspruch bei versuchten Reparaturen mit oder beim Einsetzen von nicht-originalen Hiplok-Ersatzteilen oder Zubehör. Diese Garantie hat Vorrang gegenüber sämtlichen anderen allgemeinen oder speziellen, ausdrücklichen oder implizierten Vereinbarungen oder Gewährleistungen und kein Vertreter bzw. keine Person ist dazu berechtigt, im Namen von Plus 8 Industries für den Verkauf oder die Verwendung dieses Produkts die Haftung zu übernehmen. Wenn nicht ausdrücklich anders angegeben, gewährt Plus 8 Industries keine anderen ausdrücklichen Gewährleistungen oder Garantien. Plus 8 Industries übernimmt keine Verantwortung für Dritte und für die Folgen, die sich aus der Verwendung oder dem Umgang mit Hiplok-Produkten durch eine natürliche oder eine juristische Person ergeben können.	DE	Garanti Hiplok och Plus 8 Industries Ltd garanterar att denna produkt är fri från tillverkningsfel i material och utförande. Om inte annat anges i den lokala lagen, är denna garanti begränsad till två år från inköpsdatum och är begränsad till den ursprungliga köparen. Denna garanti gäller inte vid missbruk, försumlighet, slarv eller modifiering, eller om produkten används på annat sätt än vad som avses. Garantin gäller ej om läset har lagats eller modifierats med icke original delar. Denna garanti har företråde framför alla andra överenskommelser eller garantier, allmänna eller särskilda, uttryckliga eller underförstådda, och ingen representant eller person är behörig att ta ansvar på uppdrag av Plus 8 Industries i samband med försäljning eller användning av denna produkt. Plus 8 Industries avstår allt ansvar för någon tredje part för konsekvenser som kan bli följden av användning eller hantering av en Hiplok produkt av någon fysisk eller juridisk person.	SE
